# TANGO

A low-seeded mandarin with good flavor  
and excellent internal color

## Tango

The Tango is a low-seeded mandarin that has excellent internal color. The fruit does not de-green so they must achieve maximum color in the field.

Fruit will mature in December, but will have better color if held on tree into January.

Trees perform better than average with HLB. They show HLB symptoms, but keep cropping.

The fruit has has good flavor. Nursery and Grower agreements are available.

## Highlights

- Low-seeded mandarin
- Matures in December/January
- Good HLB tolerance
- Excellent internal color
- Good flavor
- Available for licensing through NVDMC
